

Cattle Hill Wind Farm Construction Update for April 2019.

Cattle Hill Wind Farm is located on the eastern shore of Lake Echo in the southern side of the Central Plateau of Tasmania. The project will consist of 48 Goldwind turbines and associated infrastructure. Construction of the project is currently underway, and the wind farm is aimed to become fully operational in late 2019.

On-site Construction Progress

Work undertaken by Hobart based company, Hazell Brothers, on the project site is ongoing:

- Approximately 25kms of access roads between wind turbines completed.
- Approximately 44 wind turbine foundations excavated.
- Approximately 27 foundations poured.
- Substation construction works commenced.
- Main crane assembled and ready to lift.
- First wind turbine towers partially erected.

Transportation of Oversize Turbine Components

The transportation of oversize turbine components is now underway. Goldwind would like to thank all community members that attended the event in early March in Bothwell to celebrate the start of oversize deliveries. Over a hundred local community members were able to get up close and personal with a 68.7 metre Goldwind blade at the event.

Approximately 528 loads of oversize turbine components will be transported from the Port of Bell Bay to the project site. The route will follow the Bell Bay Road, East Tamar Highway, Midland Highway, Highlands Lakes Road, Waddamana Road and Bashan Road to the project site.

The loads will travel Monday – Saturday mornings each week, leaving the Port of Bell Bay between 2:30am – 4am and arriving at the project site between 11am and 12noon.

Goldwind places a high importance on road safety for all road users and acknowledges the inconvenience that encountering these deliveries may cause. All loads will travel in accordance with the relevant permit conditions and will be accompanied by pilot vehicles and in some cases police escorts.

Community Engagement

Local community groups and organisations are invited to be in touch if they wish to discuss how they could learn more about the project (for example having a tailored information session for the group) or if they would like to discuss the potential for sponsorship opportunities.

Community members are invited to drop into the information centre to learn more about the project and chat with Janet (local community relations officer for the project). The Information Centre is located at Shop A, 16 Patrick Street, Bothwell (behind Bothwell Garage).

CATTLE HILL
Wind Farm

Opening hours for the Information Centre:

- Wednesday 9am-12noon
- Thursday 1pm-4pm
- Friday 9am- 4pm
- Or by appointment

If you have any questions related to the project, please be in touch:
