

**Cattle Hill Wind Farm Construction Update for November 2019.**

Cattle Hill Wind Farm is located on the eastern shore of Lake Echo in the southern side of the Central Plateau of Tasmania. The project will consist of 48 Goldwind turbines and associated infrastructure. Construction of the project is currently underway, and the wind farm is aimed to become fully operational in late 2019.

**On-site Construction Progress**

Construction work on the project site is ongoing:

- Approximately 22 of 48 Goldwind turbines have been fully installed, with two main cranes now installing on site.
- Pre-commissioning of turbines has been ongoing and generation commissioning is planned to commence in the next few weeks.
- Commissioning of the IdentiFlight system is ongoing with the turbine commissioning.

**Transportation of Oversize Turbine Components**

The transportation of oversize turbine components is now complete. Approximately 528 oversize loads have been transported to the project site since March, with twenty per cent of tower components being manufactured locally by Haywards and transported from Launceston to the project site.

Goldwind would like to thank the local community. We really appreciate the patience and understanding of the communities along the delivery route, especially those who experienced any delays or inconvenience as a result of the blade rollover incident in September. Any further oversize deliveries to site will be limited to spare or additional components.

**In the Community**

Cattle Hill Wind Farm welcomes local community groups and organisations to contact us if they would like to discuss potential opportunities for the wind farm to provide financial assistance and support to community initiatives and events in the local area.

Cattle Hill Wind Farm is pleased to be a major sponsor for the World Fly Fishing Championships – planned to be held Tasmania later this year.

Community members are invited to drop into the information centre to learn more about the project and chat with Janet (local community relations officer for the project). The Information Centre is located at Shop A, 16 Patrick Street, Bothwell (behind Bothwell Garage).

Opening hours for the Information Centre:

CATTLE HILL  
Wind Farm

- Wednesday 9am-12noon
- Thursday 1pm-4pm
- Friday 9am- 4pm
- Or by appointment
